

DHI-HY-C135

Conventional Multi-sensor Smoke and Heat Detector

- 3W-B multi-sensor smoke and heat detector with two-wire and polarity-free power supply
- · Reliable communication: Built-in microprocessor, stable performance
- Ultra-low power consumption: Ultra-low monitoring current and alarm current
- High-performance sensor featuring a split-spectrum optical smoke detector and a sensitive thermistor

System Overview

The DHI-HY-C135 Conventional Multi-Sensor Detector is a complementary component of the conventional fire alarm system. It combines an optical smoke sensor with a thermistor temperature sensor, utilizing an intelligent algorithm to analyze both smoke and ambient temperature in order to activate alarms.

Functions

Split-spectrum photoelectric smoke detection technology

Integrated with split-spectrum photoelectric smoke sensing chamber, it identifies smoke effectively and provides higher fire detection accuracy.

Back light compensation technology

The smart algorithm of automatc compensation against dust concentraton helps adjust alarm threshold automatically, prolong cleaning cycle of chamber, and offer a convenient maintenance.

High-performance multi-heat sensor

Equipped with a variable fixed-temperature heat element and a rate-ofrise heat element, this detector enhances the accuracy of fire detection.

Scene

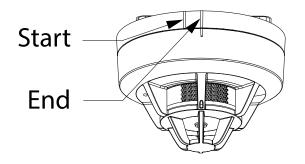

It is suitable for such industrial and civil buildings such as apartments, condominums, offices, retail stores, and warehouses.

Technical Specification		
Power	DC24V	
Current	Monitoring current: ≤ 70μA Alarm current: ≤ 15mA	
Indicator	Red LED Polling: Flash every 6 seconds Alarm: Remain lit Fault: Flash every 2 seconds	
Alarm Threshold for Heat Detection	A2R (54°C to 62°C) (129°F to 144°F)	
Wiring	Two-wire, polarity-free	
Operating Temperature	-10°C to +55°C (+14°F to +131°F)	
Storage Temperature	-20°C to +65°C (-4°F to +149°F)	
Operating Humidity	≤ 95% RH (no condensation)	
Color	White	
Dimensions (with base)	Φ 100 mm × 68.7 mm (Φ 3.94" × 2.70")	
Weight (with base)	110.0 g (0.243 lb)
