

# DHI-HY-RI151

## LED Remote Indicator

- Flexible application, suitable for a variety of products

### System Overview

DHI-HY-RI151 LED Remote Indicator is designed to ensure that alarm signal can be actually transmitted to all locations. Especially for a closed room, any fire inside can be indicated outside. This device can be connected easily in fire alarming system or protection system with led light which consumes less power.

### Functions

#### Flexible application

Connect with Dahua products or third-party products.

#### Multiple power supply

Powered by 3.3V DC or DC24V DC.

#### Easy installation

Multiple sets of installation holes, easy to install.

### Scene

It is suitable for the commercials, hospitals, schools, residentials, theaters, exhibition halls, transportation hub port stations, office buildings and other occasions.
