AOV PT 5MP 4G & Wi-Fi

For Continuous Charging

AOV PT enables you to view anywhere you want. It is designed for enjoying 24/7 off-the-grid freedom with the upgraded 5W solar panel (Sold separately) and a powerful 10,000 mAh battery. With just 2 hours of ample sunlight daily when using the included solar panel, it can meet the power consumption of up to 100 event triggers per day, eliminating any concerns about battery life. Additionally, it offers a new experience with ultimate security and seamless connectivity, supported by cellular and Wi-Fi for maximum versatility.

Compared to traditional battery-powered cameras, AOV PT can record more complete and continuous smart footage with more precise detection. Compared to cameras that require continuous power supply, AOV PT is easy to install without the need for wiring, making it suitable for any scenario without electricity or internet access.

AOV PT strives to provide you with a superior product experience, while thoughtfully protecting your home security.

AOV PT takes it to the next level with the latest Always-on Video (AOV) technology. With AOV, the camera intelligently allocates its resources by compiling time-lapse videos from images captured at your scheduled intervals. Additionally, it also records full videos when an alarm is triggered, precisely controlling the power consumption for each operation. This enhances home safety while reducing battery consumption.
